

656 System

Strong, secure, versatile fencing

Benefits of using 656 Systems

The 656 mesh fencing system offers strength, security, and visibility, ideal for commercial and public infrastructure. Its robust design includes twin 6mm horizontal wires welded to a 5mm vertical wire for enhanced rigidity and cutting resistance. The anti-climb feature deters intruders while allowing for surveillance visibility. With low maintenance, it is galvanized and powder-coated for corrosion resistance, providing a reliable, cost-effective solution for high-traffic or high-risk areas.

- ✓ Safety & Security
- ✓ Weather Resistant
- ✓ Anti-Climb Design
- ✓ Rust-resistant finish
- ✓ Simple installation
- ✓ Modular & Scalable

Secure Clip or Clamp Solution

The 656 Mesh System provides a versatile installation method using either a clip or a clamp fixing, giving flexibility to suit different site requirements. This design ensures strong panel retention while maintaining the clean, unobtrusive look of the mesh. Combining high visibility with robust anti-cut and anti-climb features, the 656 System delivers dependable security for commercial, public, and high-risk environments.

656 System

Strong, secure, versatile fencing

Panel, Post, Clamp Bars:

Built from high-quality galvanized steel, the Protek 656 Clip System is engineered for long-lasting performance. Its weather-resistant finish ensures the system can withstand the elements, making it ideal for use in various climates. From coastal regions to urban areas, this fencing system provides protection without the need for extensive maintenance. Periodic inspections are all that's required to maintain its integrity, ensuring a long service life with minimal effort.

Customizable Security Solution

The 656 fencing system can be tailored to suit a wide range of applications, making it a versatile choice for both public and private projects. Panels are manufactured in different heights and powder-coated finishes, giving architects, contractors, and property owners the freedom to meet precise site requirements. This flexibility ensures the system delivers the right balance of protection and appearance for each location while adapting seamlessly to environments such as schools, business parks, transport hubs, and industrial facilities.

Specification Details

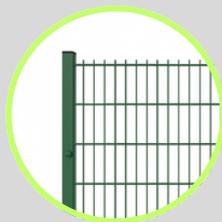

Panel Height	Post Section	Post Centres	Wire D.(H/V)*	Mesh Pattern	Fixing Points
0.630m	60x60/60x40	2.52m	8/6mm	50 x 200mm	3
0.830m	60x60/60x40	2.52m	8/6mm	50 x 200mm	4
1.030m	60x60/60x40	2.52m	8/6mm	50 x 200mm	4
1.230m	60x60/60x40	2.52m	8/6mm	50 x 200mm	4
1.430m	60x60/60x40	2.52m	8/6mm	50 x 200mm	5
1.830m	60x60/60x40	2.52m	8/6mm	50 x 200mm	5
2.030m	60x60/60x40	2.52m	8/6mm	50 x 200mm	6
2.430m	60x60/60x40	2.52m	8/6mm	50 x 200mm	7
3.030m	60x60/80x40	2.52m	8/6mm	50 x 200mm	9
