

# Bow Top Railings

Curved panels for secure, stylish boundaries.

## Benefits of using Bow Top Railings

Bow top railings offer a safe, stylish, and low-maintenance solution for a wide range of settings, from schools and parks to residential and commercial properties. Their smooth, rounded tops reduce injury risk and discourage climbing, making them ideal for public spaces. Built from durable, rust-resistant materials and available in various finishes, bow top railings combine long-lasting performance with timeless visual appeal.

- ✓ Safety & Security
- ✓ Weather Resistant
- ✓ Child-friendly design
- ✓ Rust-resistant finish
- ✓ Simple installation
- ✓ Compliant with Safety Standards

## Trusted in Public Spaces

Bow top railings are a long-standing choice where safety, visibility, and appearance all matter. The curved design maintains clear sightlines, helping create open and supervised environments while delivering a distinctive and recognisable style. Their versatility makes them suitable for parks, schools, housing developments, and community projects where a reliable boundary solution is required. With proven performance across the UK, bow top railings remain a specification that balances practicality with visual appeal.

# Bow Top Railings

Curved panels for secure, stylish boundaries.

## Top Choice for Public Spaces

The first choice for park security and perimeter demarcation with ease of installation. Our bow top railing systems are the best available. In-house fabrication and quality control ensures top quality products at unbeatable prices. The system can be provided to conform with RoSPA/Playsafe requirements if required with only minor adjustment to the below specification.

## Panels and Posts

Our system is designed to follow uneven ground with ease, thanks to a bolt-through cleat design that allows natural stepping without costly site work. Anti-tamper fixings ensure security and performance even on challenging terrain. All products are hot-dip galvanized and powder-coated to British Standards in your chosen RAL colour. Designed and fabricated in-house in the UK, we maintain full quality control and offer flexible production support. Easy to install, visually appealing, and built to secure.

## System Finish:

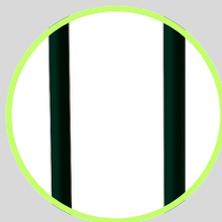

The product is hot-dip galvanized to BS EN 10346:2015 and polyester powder-coated to BS EN 13438:2013. You can choose the finish colour, with an option for contrasting panel/post colours to help meet DDA compliance.

**All items undergo thorough multi-stage inspections to ensure they meet these standards, supporting our 10-year product guarantee.**
